3º LEILÃO
GENÉTICA

A Coqueiral Agropecuária possui criterioso trabalho de melhoramento genético da raça Nelore com mais de 20 anos de execução.

O trabalho de seleção tem foco nas principais características de relevância econômica da atividade pecuária, sendo estas: precocidade sexual fertilidade, ganho de peso, habilidade materna, marmoreio, acabamento e rendimento de carcaça.

A Coqueiral também possui extenso projeto de FIV inserido no processo de seleção, potencializando o ganho genético anual do rebanho com a seleção de doadoras jovens e destaques de cada safra.

O trabalho de seleção é delineado com foco em produtividade, implementação de tecnologia e manutenção de variabilidade genética, o que resulta em elevado ganho genético anual e destaque a nível nacional.

A coqueiral também realiza Genotipagem a cada safra, contribuindo para maior acurácia das avaliações e maior assertividade na seleção.

Somos apaixonados pela raça, e construímos ao longo dos anos um grande trabalho norteado pela genética, tecnologia e inovação.

Coqueiral Agropecuária, sempre em constante evolução, atendendo as necessidades do mercado.
